Who is a+a training?

a+a training is an international health education company who specialises in providing professional, well organised, client focused training sessions on topics needed when working in the health care industry. a+a training (Australia) is the Australian arm.

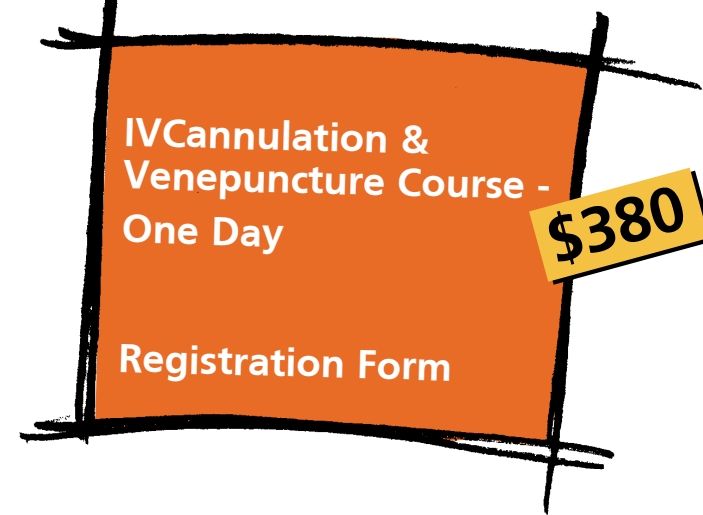

Our courses are open to individuals looking for new skills or updating existing qualifications. We also cater for groups, and deliver training on site.

a+a training can provide you with a modern and clinically relevant approach to learning. We provide professional instructors who have excellent teaching skills and most importantly actively work across the health care industry. Our instructors include practicing registered nurses from all areas of health care, midwives, paramedics, general practitioners and emergency physicians.

Call us for your educational needs, we cater for all types of training no matter what needs to be taught.

*First class,
first choice!*

IVC & Venepuncture Course

One Day = 8 CNE Points

What is the IVC & Venepuncture Course:

This course designed to help health care professionals gain the required skills and knowledge to successfully insert cannula and take blood samples safely.

Who is it for:

Ideally suited for beginner health professionals and those who are new to IV cannulation and venepuncture.

Course Objectives:

- Anatomy and physiology
- Introduction the equipment
- Easy and safe approach to IV cannulation and venepuncture
- Rationale and selecting the correct equipment
- Legal, professional and occupational health and safety responsibilities
- Hints and Tips from health care professionals

Method of teaching:

Our popular IV Cannulation and Venepuncture course utilises different types of teaching from didactic lectures to outline the knowledge required before embarking on the practical sessions which form a majority of the course. These practical session focus on technique, troubleshooting and hints/tips from the instructors. We encourage group discussion to share ideas and hints.

- We pride ourselves on our instructor to student ratio of 1:8, this enables greater interaction with students and more hands on time.
- All our instructors are practicing health professionals who work in critical care areas.

a+a training courses are designed to suit all practicing health professionals including registered / enrolled nurses, medical officers, paramedics, allied health personnel and midwives.

a+a training can provide training at your venue or any other suitable location. a+a training are also covered by full public liability insurance and professional indemnity insurance. a+a training prides itself on providing a safe learning environment.

If the courses displayed in our brochures do not cater to your needs, please call on **1300 88 47 38 to organise tailor made courses to suit your needs.**

a+a training is endorsed to provide RCNA CNE points Provider No: 07050939
